Objective

I am a hard-working, goal oriented, Computer Science student at Georgia State University. I have experience building anything from simple HTML pages to full scale responsive web applications using React. I am currently seeking a role in web development where I can contribute my skills in creating web applications.

Education

BACHELOR OF COMPUTER SCIENCE | AUG 2017-DEC 2021 | GEORGIA STATE UNIVERSITY

- Major: Computer Science
- Concentration: Computer Software Systems
- Major GPA: 3.4

Experience

TECHNICAL ADVISOR | APPLE INC. | FEBRUARY 2019 - JANUARY 2021

- Provided in-depth troubleshooting and advanced technical support for multiple devices and operating systems
- Worked in a virtual environment
- Remained knowledgeable about new releases and latest technological advancements
- Maintained 90%+ customer satisfaction score

Projects

PLAYBAXX ([Playbaxx.netlify.app](https://playbaxx.netlify.app))

- Web app that provides information about musical artists and their songs
- Users can get artist bios, top tracks, music videos, and more
- Makes use of Spotify, LastFM, and YouTube APIs
- Designed with TailwindCSS

SPOTIFY PLAYLIST ANALYST (spotify-playlist-analyst.herokuapp.com)

- Web app that takes a user's Spotify playlist and returns data about the songs the playlist is composed of
- Users receive a breakdown of the artists, songs, and genres their playlist is composed of
- Uses both Spotify's and Last.FM's APIs
- Designed with Bootstrap

PUBLIC TO-DO LIST (su-todo-firebase.netlify.app)

- To-Do list application with Firebase integration
- All to-do items are stored and updated in Firebases Realtime Database
- Page automatically updates as soon as a change is made
- Designed with Material-UI
