#### Apple

Feb 2019 – Jan 2021

Atlanta, GA

- Provided in-depth troubleshooting and advanced technical support for multiple devices and operating systems.
- Worked remotely in a virtual environment.
- Remained knowledgeable about new releases and latest technological advancements.
- Consistently maintained a customer satisfaction score of 90% and above.

## TECHNICAL SKILLS

- HTML5
- CSS3
- React
- JavaScript
  - ES6, NodeJS
- UI Frameworks
  - Bootstrap, Material-UI, TailwindCSS
- Firebase
  - Authentication, Realtime Database, Firestore
- RESTful APIs
- Git

## PERSONAL SKILLS

- Ability to work efficiently in a team or independently.
- Grasp new concepts easily.
- Technology-focused.
- Ability to think outside of the box to find solutions.
- Constant positive attitude.

## EDUCATION

### Georgia State University

#### Bachelor of Computer Science

August 2017 – December 2021

## PROJECTS

### Playbaxx

- Provides information about musical artists and their songs
- Users can get artist bios, top tracks, music videos, and more
- Makes use of Spotify, LastFM, and YouTube APIs
- Designed with TailwindCSS

### Spotify Playlist Analyst

- Takes a user's Spotify playlist and returns data about the songs in it
- Users receive a breakdown of the artists, songs, and genres their playlist is composed of
- Uses both Spotify's and Last.FM's APIs
- Designed with Bootstrap

### Firebase To-Do List

- To-Do list with Firebase integration
- All to-do items are stored and updated in Firebase's Realtime Database
- Page automatically updates as soon as a change is made
- Designed with Material-UI

## HOBBIES

- Listening to and finding new music.
- Learning about emerging technology.
- Playing video games.
